When your admission was confirmed, you received a message to activate your UPC user account in order to access the different platforms.

Dear Sir/Madam,

Please find enclosed the account information that will enable you to access the UPC intranets:

Username: name.lastname

In order to get your password you must click this link: [Get Password](#)

1. Email UPC

With your user profile your UPC email is activated. You must have received another message: "Activació de bústia realitzada".

Dear Sir / Madam,

We have enabled an email account to the user **name.lastname** with the email address name.lastname@estudiantat.upc.edu. First of all, you need to [activate the two-factor authentication to the account](#).

Once you have done this, you can access through the web <https://correuv3.upc.edu> with the same user name and password of the UPC intranets adding the two-factor authentication code.

If you do not remember your username and password, you will be able to reset them on the page [recover your password](#).

You can find all the information about the email service in the following link: <https://serveistic.upc.edu/ca/correu-v3-gmail>

If you have any questions please contact us.

ATIC - <http://serveistic.upc.edu/ca/atic>

In case you have not activated your account when you received the messages, you have to do it now. It is very important that you log in and check this new account as all communications from the University will be made through this address.

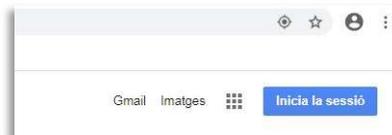

1.1 To activate the mail and G-Workspace for education account

The double-authentication factor is an additional code that you will have to enter to access some applications of the UPC in addition to your usual username and password. It consists of a 6-digit temporary code provided by an application that you can install on your phone or a workstation. It changes every 30 seconds and you should check the application to know which code is valid at that time: <https://serveistic.upc.edu/ca/sso/documentacio/sso-2fa>

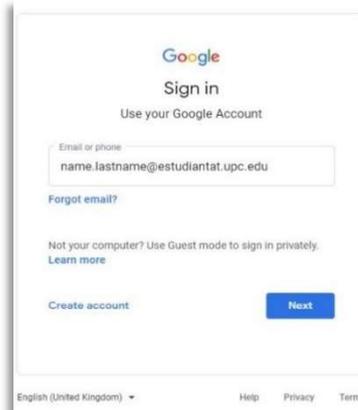

Open a browser (preferably Google Chrome) and open www.google.com

Log in clicking in the upper right button.

To sign in, write your full email name.lastname@estudiantat.upc.edu

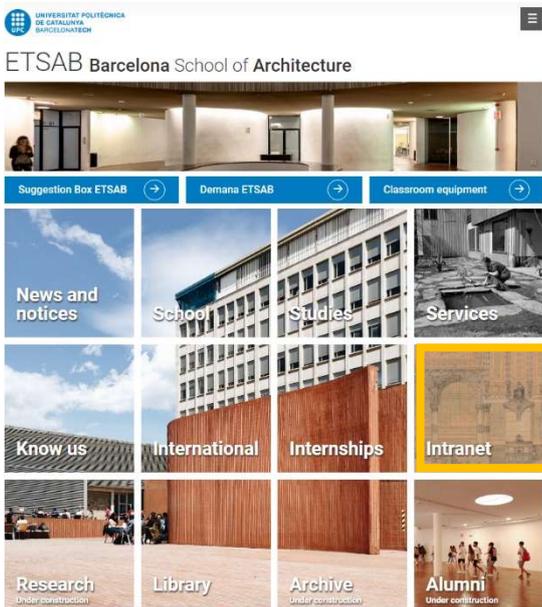

It will redirect you to the Portal of the UPC identity system where we only have to put our UPC username and password (**point 1**)

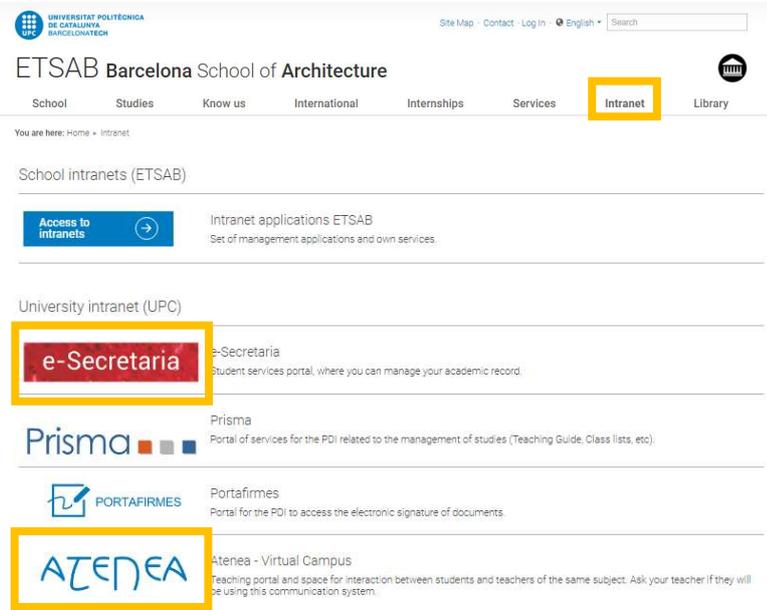

***UPC Mail and G-Workspace will expire a few months after the end of your last semester at UPC. Do not forget to back up your messages and files at the end of your mobility!**

2. Access to UPC intranets

2.1. To access the two UPC intranets go to www.etsab.upc.edu and click on Intranet

You will see the link to enter the **e-Secretaria** and **Atenea**, the two UPC intranets that you will be using this year in ETSAB.
