

AC37 WATCHTOWER

MSA-BARCELONA KURZENTWÜR

addressed to **4 places** for ETSAB students currently enrolled at:
Grau en Estudis d'Arquitectura
Màsters Universitaris àmbit Arquitectura

application deadline: **15th November 2023**
send email to: relint.etsab@upc.edu
with subject: taller MSA_name.surname
with your: name | DNI | email | phone | studies | level

academic recognition **1 ECTS** for GARq students

INTERNATIONAL WORKSHOP

dates **20th November – 24th November 2023**

venue ETSAB, Barcelona

activity Barcelona Kurzentwürf is a short design workshop involving urban, sustainable and architectural strategies. The workshop will focus on a possible watchtower/media center/visitor's center for the 37th America's Cup sailing race, that will take place in Barcelona in summer 2024. Unlike other sports events in the past, this time the competition will not bring any urban/architectural transformation of the city. Waterfronts, iconic buildings, temporary architecture and massive use of space will be discussed, along with the so-called blue economy: marine living and non-living resources, marine renewable energy, port activities, shipbuilding and repair, maritime transport and coastal tourism.

Kurzentwürf/short design workshops are integrated short design modules held in the first semester of the Munster School of Architecture (MSA) Master study programme, in cooperation with international lecturers, via a network of renowned European schools of Architecture. ETSAB and MSA students will work in groups combining students from both universities.

participant universities Münster School of Architecture
Escola Tècnica Superior d'Arquitectura de Barcelona

co-directed by Prof. Martin WEISCHER (Dean MSA)
Prof. Anna RAMOS (Adjunct professor ETSAB)

observations The workshop will be held in English.
