

BCN STEP BY STEP SCANNING BARCELONA

activity

INTERNATIONAL WORKSHOP

BCN step by step is an intensive program comprising several courses addressing specific urban and architectural themes.

This time we will focus on the varied sections that shape a town. Reading public space and analyzing growing patterns will help us to understand the identity signs of different tissues. We will discover how buildings both depend on and build up the context.

By using BCN as case study we will be able to apply the obtained knowledge to other places and circumstances.

outcome

Working in groups students will realize a Video representing their town-experience. They will use different graphic technics.

language

ENGLISH

dates and venue

15th - 19th July 2019 at ETSAB
