

REC URBAN RENOVATION INTERNATIONAL WORKSHOP

activity

INTERNATIONAL WORKSHOP

The first edition of this international workshop will discuss the idea of urban, façade and building renovation all at once. The ancient REC industrial area in Igualada is a huge opportunity to talk about urban renovation.

The concepts of how old urban structures have to be designed in order to become useful and long lasting for the cities of the future, and how this decisions have to interact with existing buildings that need to be renovated. In this context, façades become sensible limits between exterior and interior.

dates and venue

22nd - 29th January 2018 in Igualada & Barcelona
