

TRANSFORMATION VS DEMOLITION

MSA BARCELONA KURZENTWÜRFE

activity

Barcelona Kurzentwurf is a design workshop involving constructive and architectural strategies towards a SUSTAINABLE transformation of massive housing blocks across Europe, rather than thoughtless demolition. Case studies in Amsterdam, Paris and Bordeaux will be confronted with existing massive housing examples in the Barcelona metropolitan area, aiming to find social and environmental sustainable solutions through the confrontation of transformation vs demolition.

Kurzentwürfe/short design projects are integrated short design modules held in the first semester of the Munster School of Architecture (MSA) Master study programme, in cooperation with international lecturers, via a network of renowned European schools of Architecture. ETSAB and MSA students will work in groups combining students from both universities.

dates & venue

25th November - 29th November 2019, ETSAB, Barcelona

participant universities

Münster School of Architecture, Germany
Escola Tècnica Superior d'Arquitectura de Barcelona

co-directed by

Prof. Martín WEISCHER (MSA)
