## WHERE DO YOU WANT TO GET YOUR FOOD FROM?

### activity

#### INTERNATIONAL WORKSHOP

The purpose is to investigate whether the hypothesis EVERY REGION OUTSHINES WITH ITS OWN SUSTAINABLE FOOD SYSTEM is based on reality.

From each European district one representative plus three students will be invited to spotlight 'the best practices' from their region.

During the workshop different approaches will be used to formulate an answer to the main question. The final result will be a visual display of the possibilities explored during this week.
