

UNIVERSITY HOUSING

A contribution to the crisis

MSA-BARCELONA KURZENTWÜRF

ACTIVITY

Barcelona Kurzentwürf is a short design workshop involving urban, sustainable and architectural strategies. The workshop will focus on the design of housing solutions for university students, researchers and visiting teachers which do not harm the local population but help solving the general housing cost crisis. Affordable healthy sustainable homes, natural lighting and passive heating/cooling or welcoming neighbourhood communities will be discussed, amongst other topics.

Barcelona faces, as many cities in Europe, rising housing costs – solutions are being implemented, which will serve as a starting point for the course, together with lectures from local architects and a review of case studies of university housing buildings included as referential architecture works in the Archive of the European Union Prize for contemporary Architecture – Mies van der Rohe Award.

Kurzentwürf short design workshops are integrated short design modules held in the first semester of the Munster School of Architecture (MSA) Master study programme, in cooperation with international lecturers, via a network of renowned European schools of Architecture. ETSAB and MSA students will work in groups combining students from both universities.

DATE & PLACE

25th to 29th November, 2024 at ETSAB

COORDINATION & TEACHING STAFF

Münster School of Architecture: Prof. Martin WEISCHER (Dean MSA)
ETSAB-UPC: Prof. Anna RAMOS

ACADEMIC RECOGNITION

1 ECTS (for GArq)

PLACES

4 spots for ETSAB students enrolled at:
Grado en Estudios de Arquitectura
Másters Universitarios ámbito de Arquitectura

APPLICATION

deadline: **November 11th, 2024**
send email to: **relint.etsab@upc.edu**
