activity

INTERNATIONAL WORKSHOP _ BRIDGE(S)

This edition of the ISTANBUL Winter Workshop will work on bridges: both on the concept of bridge and on the bridge as construction.

Due to its outstanding location Istanbul counts with a big variety of bridges linking not only several parts of the town, but even 2 continents. We will visit bridges from different historical periods, some built by well-known architects, others representing a concrete style or a specific technic, all giving identity to the neighbourhood and some of them to whole Istanbul. We will understand their logic and relationship to the environment. We will discover how their close surroundings determined the bridges and how the bridges influence the neighbourhoods. By using Istanbul as case study we will be able to apply the obtained knowledge to other places and circumstances.

dates & venue

22nd to 26th January 2018 in Istanbul, Turkey

programme & outcome

Visits and excursions | Fieldwork | Lectures | Workshop

All activities carried out in English. Visa required.

Students will realize a video -working in international groups- on their own experience.

participant universities

BAU Bahcesehir University, Istanbul

ETSAB Escola Tècnica Superior d'Arquitectura de Barcelona

coordinators

Professor Ümran Topçu, BAU

Professors Judit Taberna & Queralt Garriga, ETSAB

fee

50 €

places

40 places for ETSAB students enrolled at:

Grau en Estudis d'Arquitectura (pla 2014)

Grau en Arquitectura (pla 2010)

Màsters Universitaris de l'àmbit de l'Arquitectura

academic recognition

2 ECTS (Grau plans 2010 & 2014)
